

Primary Practice Questions

Corbettmaths

Angles in a Quadrilateral

Tips

- Read each question carefully
- Attempt every question.
- Check your answers seem right.
- Always show your workings

Recap

Remember

- There are daily questions found at
www.corbettmathsprimary.com/5-a-day/

1. Calculate the size of angle x in this diagram

2. Calculate the size of angle x in this diagram

3. Calculate the size of angle x in this diagram

4. Calculate the size of angle x in this diagram

5. Calculate the size of angle x in this diagram

6. Calculate the size of angle x in this diagram

7. Calculate the size of angle x in this diagram

8. Calculate the size of angle x in this diagram

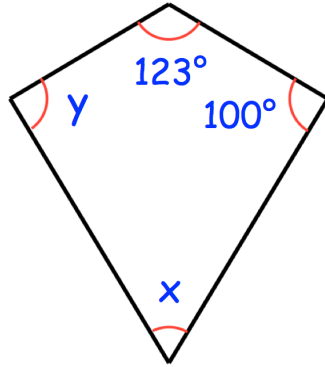

9. Calculate the size of angle x in this diagram

10. Calculate the size of angle x in this diagram

11. Here is a kite

Find the sizes of angles x and y

$$x = \boxed{^\circ}$$

$$y = \boxed{^\circ}$$

12. Here is a parallelogram

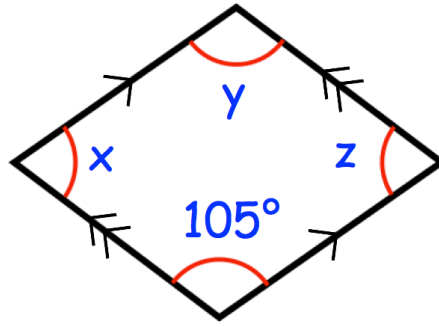

Find the sizes of angles x , y and z

$x =$

$y =$

$z =$

13. Here is a rhombus

Find the sizes of angles x , y and z

$x =$

$y =$

$z =$
